SUPPLEMENT TO REPORT NO. 25X1X

1. On the attached page is a chart showing merchant shipping available to the Chinese Communist government, classified by number of ships, total tonnage, and the coastal areas of the various provinces in which they are located. The number and tonnage of landing craft available to the Communists are also given.* Three former Nationalist landing craft of undetermined tonnage and two unidentified CLSNC ships which had surrendered to the Communists, but which the Nationalists claim were sunk by air attack, are not included in the table.
2. The table is based upon a summary of all reports on the subject available as of 10 August 1950.

25X1A* Comment. This chart, by classification of tonnage and area, and total tonnage, complements two other reports on the same subject. See 25X1A
